Dear Owners:

Aero Real Estate (ARE) will temporarily change the way we do business in light of the Corona Virus.

The Department of Defense has postponed all PCS (military Moves). If your military tenant has given notice to vacate, he/she may not be able to. If your property was leased to a soldier coming to Fort Rucker, that may not happen. We will keep you informed as to their status. We will not be able to enforce our lease dates.

Understand many tenants will be late on rent and ARE will work with them. Please make sure we have a good email address so we can communicate with you.

We will close our office to the general public for now. Someone will be here for Appointments. Our staff will work electronically as much as possible. Rental Properties will not be shown until vacant. Maintenance will be coordinated to protect our tenants and vendors from exposure. With schools and daycare facilities closed many of our vendors are unavailable or limited.

Our vacant available rentals will be shown. Applications/payment will be done electronically. Our service will not change. We are establishing additional ways for the tenants to pay rent without coming to the office.

The ARE website and our Facebook page will be updated to keep you informed of any further changes.

We are America Strong and with faith will get through this together. Take care of your families and we will continue to take care of your property and tenants. If you have any questions, please email or call.

Very Respectfully,

Debra Latremore
